APPLICATION TO REGISTER A WELL FIELD

Complete this application for the purposes of registering an existing well field.

WELL FIELD means the collection of non-exempt use wells located on a contiguous tract of land or on tracts of noncontiguous land, without intervening private ownership or private control, owned or controlled by a person, and operated to produce groundwater for one or more non-exempt use purposes.

Note: In accordance with the District's rules, the District may request additional information not requested in this application in order to consider the application administratively complete.

Instructions:

1. Complete the form to the best of your knowledge and belief.
2. Type or print all information.
3. Attach copies of any relevant documentation or information to this application including:
 - a. a scaled map of the well field that accurately describes the geographic extent of the boundary of the well field relative to public roads, the location of property lines within and at the perimeter of the well field, and the location of each water well within the boundary of the well field;
 - b. copies of the Application to Register a Well for each water well within the boundary of the well field;
 - c. documentation describing any expansions of the well field including the date of expansion since the original creation of the well field;
 - d. documentation demonstrating the ownership or control of the contiguous tract of land on which the well field is located; and
 - e. documentation demonstrating authority to act as an agent of the landowner if the application is submitted under the signature other than the landowner's signature.
4. If a portion of the information requested on this form cannot be provided, enter "unknown" in the related blank space.

SECTION 3: WELL FIELD INFORMATION

Did the subject well field exist prior to the date of the original adoption of the rules of the District, January 13, 2011? YES | NO

Purpose of use of the groundwater produced from the subject well field:

Maximum Rate of Production of the Well Field in Gallons Per Minute:

Note: If the subject well field is capable of producing 720,000 gallons per day, then submit the information as described in Rule 2.1(6).

SECTION 4: AGREEMENT

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision; the information submitted is, to the best of my knowledge and belief, true, accurate and complete; and I agree to operate the well field in accordance with the Texana Groundwater Conservation District's Rules and the State of Texas' regulations. Further, I certify under penalty of law that I am the well field owner or I am authorized to act as the agent of the well field owner.
