Topic 9.1 - Budget for FY2027

Mr. Andruss provided the following information:

On August 20, 2026, the Board authorized the publication of a proposed a tax rate not exceeding the Voter-Approval Tax Rate for Tax Year 2026 of \$0.00870/\$100 of taxable value. The Voter-Approval Tax Rate is calculated by the Tax Assessor-Collector using a complicated tax worksheet. For the District, the Voter-Approval Tax Rate is limited to an 8% increase in tax levy. However, base on the formula prescribed in code for the development of the small taxing unit notice, the notice would have indicated the proposed tax rate "would increase total taxes" by 8.137%. To avoid a potential controversy or dispute regarding the proposed tax rate, management authorized the publication of a proposed tax rate of \$0.00860/\$100 of taxable value with 8% tax rate increase calculation.

Management developed a draft budget for the fiscal year ending September 30, 2027, that attempts to fund the operations of the District in a manner which provides for 1) the accomplishment of the management plan goals and objectives, and 2) the completion of projects and tasks associated with the administration of the district, groundwater conservation, groundwater management and permitting, groundwater monitoring, groundwater policy development, groundwater protection, groundwater research, and groundwater resource planning.

To facilitate future comparisons of adopted budgets to financial audits and to simplify bookkeeping tasks, the draft budget has developed using a single fund referred to as the General Fund instead of developing a budget using two funds, Operating Fund and Reserve Fund.

The draft budget anticipates purchases and projects that are not routine in nature including funding for increased legal expenses, increased district fees, expanded water level assessment, increased legislative support expenditures, site-specific monitoring and assessments, CGCBGF Model improvements, expanded DFC modeling.

For the purposes of budgeting revenue, the draft budget anticipates the collection of \$340,100 in tax revenue based on the computed tax levy for the proposed tax rate for Tax Year 2026 of \$0.00860/\$100 of taxable value.

Board Action:
